EDUCATION

COMSATS UNIVERSITY ISLAMABAD, LAHORE

CGPA: 3.24

Bachelor of Computer Science (BSCS)
2022 – 2026

PUNJAB COLLEGE OF SCIENCE

957/1100 in Pre-Medical BISE Lahore

164/200 in Mathematics BISE Lahore

Intermediate in FSc. Pre-Medical with Mathematics
2019 – 2021

ADABISTAN-E-SOOPHIA HIGHER SECONDARY SCHOOL

1046/1100 in Matric BISE Lahore

Matric in Science

2006 – 2019

TECH SKILLS

Programming Languages: Java, Dart, Python, C++, C#, JavaScript

AI/ML: TensorFlow, Scikit-learn, OpenCV

Mobile App Development: Flutter

Front-End Technologies: HTML, CSS, React.js, Flutter

Back-End Technologies: .NET 10, Node.js, Express.js, FastAPI, REST APIs, Firebase Services

Database: Firebase Firestore, MSSQL, Entity Framework Core (Code First, Database First)

Tools: GitHub, VS Code, Visual Studio, MATLAB, Google Colab

SOFT SKILLS

- Teamwork
- Time Management
- Effective Communication
- Critical Thinking

PROFESSIONAL EXPERIENCE

Full Stack Development Engineer Intern @ NETSOL Technologies

July 8th, 2026 – Present

- Developing web applications using MVC (.NET 10) architecture.
- Building CRUD-based applications using Controllers, Views, Models, and Razor Pages/View Engine.
- Creating and managing database using Entity Framework Core.

Flutter Developer Intern @ DEVELOPERSHUB CORPORATION

April 13th, 2026 – May 25th, 2026

PROJECTS

Alert Mate (FYP)

Developed a real-time **AI-based Drowsiness Detection System** using **Machine Learning**. Integrated a **Mobile Application using Flutter** with a **FastAPI** backend.

Drowsiness Detector Model

Developed an AI-based Drowsiness Detector using **Machine Learning**, Computer Vision, and Artificial Intelligence techniques. The model uses **OpenCV** to perform real-time facial landmark detection and extracts key facial features.

Book Verse

A mobile application using **Flutter and Firebase** for book discovery and management, allowing users to browse, search, and order books. Implemented Firebase Authentication and Firestore for secure user login and real-time data storage.

Oil Inventory Management System

Developed a system as a database project to manage stock levels, suppliers, and transactions. Designed and implemented a relational database schema using **MSSQL**, ensuring proper normalization and data integrity.

Twitter Replica

Developed a DSA project using **Java** and **Java FX**, implementing features such as tweet posting, likes, comments, and user timelines. Utilized data structures like arrays, linked lists, stacks, queues to efficiently manage user data, feeds, and interactions.
