EDUCATION

COMSATS UNIVERSITY ISLAMABAD, LAHORE

CGPA: 3.19

Bachelor of Computer Science (BSCS)
September, 2022 – Present

PUNJAB COLLEGE OF SCIENCE

957/1100 in Pre-Medical BISE Lahore

164/200 in Mathematics BISE Lahore

Intermediate in FSc. Pre-Medical with Mathematics
2019 – 2021

ADABISTAN-E-SOOPHIA HIGHER SECONDARY SCHOOL

1046/1100 in Matric BISE Lahore

Matric in Science
2006 – 2019

TECH SKILLS

Programming Languages: Java, Dart, Python, C++, JavaScript

AI/ML: TensorFlow, Scikit-learn, OpenCV

Mobile App Development: Flutter

Front-End Technologies: HTML, CSS, Flutter

Back-End Technologies: FastAPI, REST APIs, Firebase Services

Database: Firebase Firestore, MSSQL

Tools: GitHub, VS Code, MATLAB, Google Colab

SOFT SKILLS

- Teamwork
- Time Management
- Effective Communication
- Critical Thinking

PROFESSIONAL EXPERIENCE

Flutter Developer Intern

DEVELOPERSHUB CORPORATION | April 13th, 2026 – May 25th, 2026

- Developed Flutter applications with responsive and user-friendly UI designs.
- Integrated REST APIs and displayed JSON data dynamically in Flutter apps.
- Configured Firebase Authentication and Firestore database integration.
- Used GitHub for version control and project documentation.

PROJECTS

Alert Mate (FYP)

Developed a real-time **AI-based Drowsiness Detection System** using **Machine Learning**. Integrated a **Mobile Application using Flutter** with a **FastAPI** backend.

Drowsiness Detector Model

Developed an AI-based Drowsiness Detector using Machine Learning, Computer Vision, and Artificial Intelligence techniques. The model uses **OpenCV** to perform real-time facial landmark detection and extracts key facial features.

Book Verse

A mobile application using **Flutter** and **Firebase** for book discovery and management, allowing users to browse, search, and order books. Implemented Firebase Authentication and Firestore for secure user login and real-time data storage.

Oil Inventory Management System

Developed a system as a database project to manage stock levels, suppliers, and transactions. Designed and implemented a relational database schema using **MSSQL**, ensuring proper normalization and data integrity.

Twitter Replica

Developed a DSA project using **Java** and **Java FX**, implementing features such as tweet posting, likes, comments, and user timelines. Utilized data structures like arrays, linked lists, stacks, queues to efficiently manage user data, feeds, and interactions.
